*Welcome to Neylor Architectural Shading!*

*Our monthly newsletter is designed to keep you up to date with the latest and greatest in Architectural Shading and design.*

Please check out our brand new website: [www.Neylor.com.au](http://www.Neylor.com.au)

The entire team at Neylor would like to wish all our clients, supporters and their families a safe and Merry Christmas and look forward to continuing our relationships in the New Year!

## RE-LAUNCH CELEBRATIONS!

On Wednesday 19th November 2008, Fraser's Function Centre in Kings Park provided the ultimate venue for Neylor to launch our new branding to more than 100 guests.

The stunning Perth City skyline was the perfect backdrop for guests to view the interactive displays of some of the most innovative sun control shading solutions on the market today.

Representatives from our most ardent supporter, Vertilux, were on hand to discuss the exciting new range of GREENSTAR\* fabrics now available in Australia, and Somfy provided expertise in automation.

Vertilux's patented roller blind systems were highly sought after displays, showing a wide range of systems available for different applications.

The latest designs were on show throughout the function centre, with guests particularly intrigued by the very creative *Cascade Coil Mesh Curtain* from the United States and the *Stralys S Fold Curtain Track* from Mottura, Italy.

Managing Director, Paul Hargrave, unveiled the new look company logo and delivered a well received address to the assembled guests highlighting Neylor's vision for the future of Architectural Shading in Western Australia. The Café Jazz band presented an inspiring arrangement of background music, while Fraser's offered a rich assortment of delicacies for guests to sample.

Feedback from the event has proved extremely positive. Here are some of the testimonials:

*"...Great show, you should change your name every year!"*

*"...You succeeded in putting on a superb evening. Your re-branding is in alignment with the direction our business is moving also. We look forward to continuing to build the relationship between our businesses and utilise your services in more of our projects."*

*"...What a great 'do' you put on at Fraser's. Thank you for inviting us...well done. Like the new logo too!"*

It most definitely was a great 'do', and we would like to sincerely thank all participants for taking the time out of your busy schedules to support our re-positioning in the market today and for the future.

## FEATURE PRODUCT - Vertilux GreenStar Fabric Range

It's all about the fibre

[Not all Trevira CS and Polyester fabrics are the same]

**GREENSTAR★**

- ★ Engineered fibre, constructed specifically for use with roller blinds and woven into a well-weighted fabric for optimum performance.
- ★ 100% PVC Free.
- ★ Very low VOC emissions, exceeding the Green Building Council Australia standards.
- ★ Excellent Solar Optical Properties achieved, as tested by independent testing authority Matrix to ASHRAE Internal Standard 74-73.
- ★ Permanently flame retardant without the use of additional chemical finishes.
- ★ Crease resistant and easy care.
- ★ Dimensionally stable, sits consistently flat and does not warp on its edges or at the bottom rail.
- ★ Texture and a natural feel are achieved without the use of chemicals.
- ★ Vertilux Metalisation is low glare while still achieving excellent Rs (Solar Reflection) values.
- ★ No decay and mould.
- ★ The ranges have the benefit of a natural fabric look rather than a 'plastic' unnatural appearance.
- ★ Okeo-Tex Standard 100 Certified - This certificate shows that the fabric has been evaluated and screened for any harmful substances present within the textile processes.
- ★ Ecospecifer assessed with excellent results.
- ★ Green Building Council Australia member.

The Vertilux **GREENSTAR★** Fabric range is EXCLUSIVE to Neylor Architectural Shading.
