

Neylor Newsletter

Summer 2009-2010

Welcome to 2010!

A New Year and a New Decade is upon us, bringing some exciting new projects, products and design ideas.

This issue highlights the all new PVC-free and Fibreglass-free fabric ranges.

Neylor also introduces our Estimator / Sales Coordinator, Irene Pergunas.

Neylor would like to wish all our clients, past and present a joyful and prosperous New Year!

Choose your shade.

Staff Profile:

Irene Pergunas - Estimator / Sales Coordinator

Irene entered the newly created position of Estimator / Sales Coordinator in 2008, bringing with her a passion for organisation and excellence in Customer Service. Her experience comes from a varied background in the Building & Construction, Finance, Public Service (Defence) and Education Industries.

'I have lived and worked throughout WA and across many different industries, and I hope to bring something "outside of the box" to Neylor and their clients.'

Starting the newly created role has truly put her skills to the test in organising the busy Sales Team and helping to create a new standard in customer service that is very much in line with Neylor's

Core Values.

Irene is always available to help our clients with new projects, specification information or pricing and can be contacted on 9409 2025, 0414 803 458 or simply send an email to irene@neylor.com.au

PVC-free and Fibreglass-free Fabrics Now Available!

The New Year sees the introduction of EuroBloc, the room darkening version of the ever popular Euro-Screen. With superior heat and reflection properties it can assist in maintaining an energy efficient environment that is designed to meet stringent standards in light glare reduction and insulation from harmful UV rays.

EuroBloc comes standard with the backing colour matched to the face colour of the fabric. Therefore, no more white backing on the room darkening blinds to interrupt the cohesion with the building design as seen from the streetscape.

Available in a range of colours that coordinate well with other fabric

ranges and can be used with the Roller Blind, Roman Blind or Panel Glide Systems. Is perfect for use in Home Cinemas or Corporate Boardrooms, when maximum room darkness and style is required.

For more information, click [here](#).

**an intelligent
all-in-one solution
for heat, rain and
light control.**

Outstanding Benefits

- PVC Free—No Halogen
- Fabric is stiffened without chemicals
- Prevents odour build up
- No decay or mould
- High colour brilliance and fastness to light
- Permanently flame retardant without the use of additional finishes
- Withstands all methods of disinfection
- Harmless to Health
- Minimises the risk of transferring bacteria
- Ultrasonic sealed edges
- Suitable for humid rooms
